for your  
laundry**

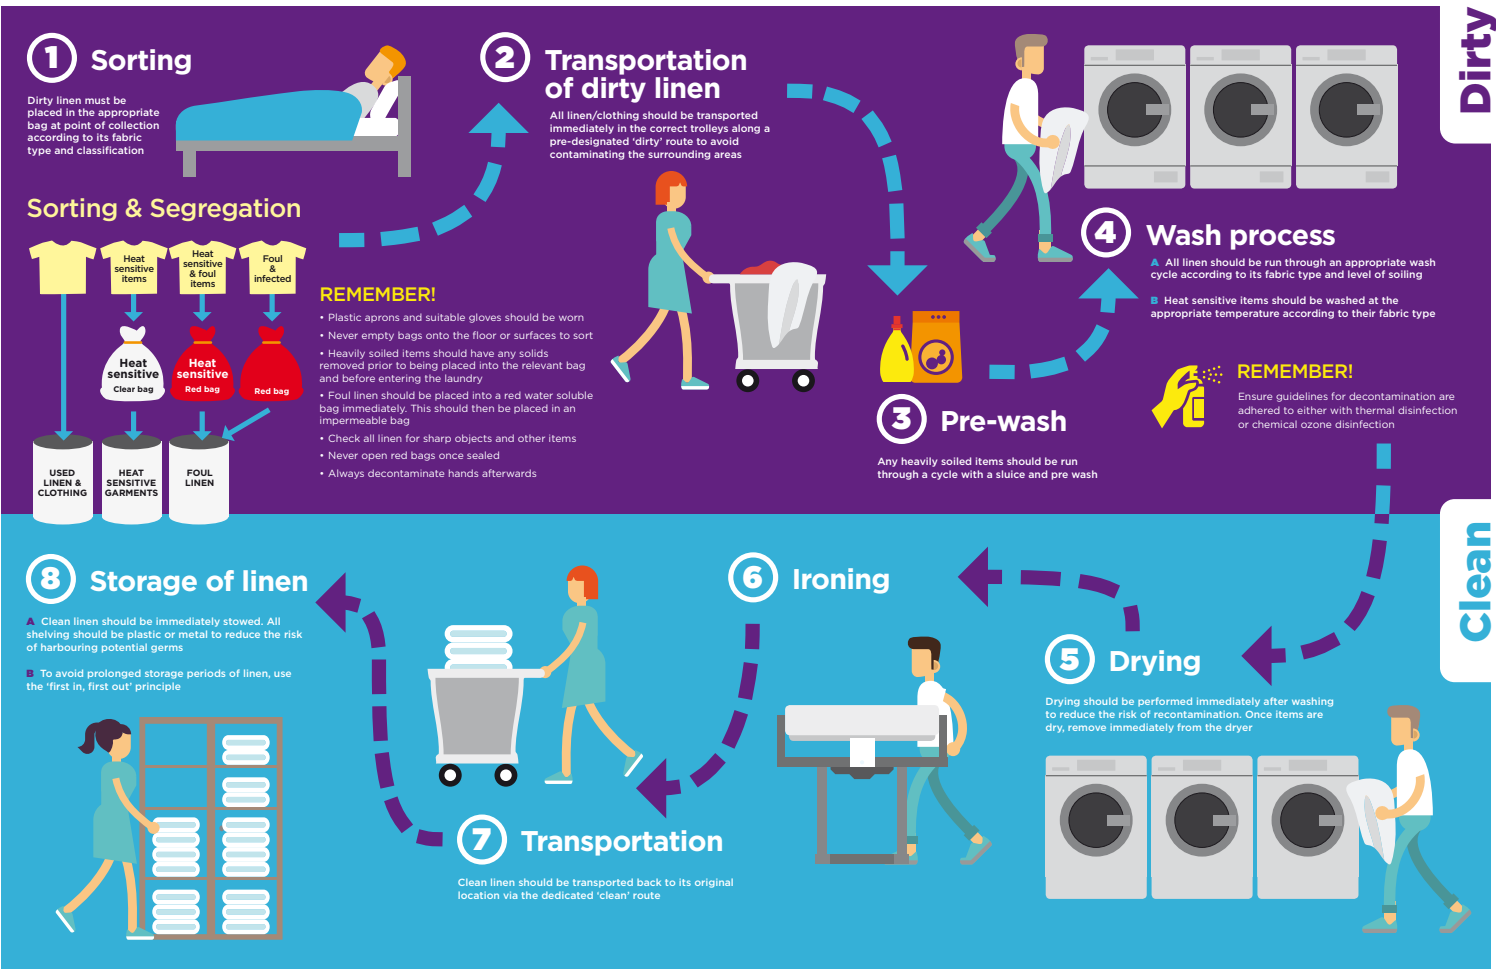

# COMPLETE HYGIENIC SOLUTIONS

Expertize + Product range + Hygienic products

Expertise in laundry  
cycle management

## LAUNDRY

### Appliances

Health institutions are at a great risk, therefore:

- Use professional equipment
- The appliances have to have hygienic programs
- Do not use domestic appliances

### Disinfection

Make sure you use one of the following methods:

- Thermal disinfection
- Chemical disinfection  
(the one equal to the thermal one by it's efficiency)
- Ozone and ultraviolet rays

### Waste storage

For separating non-infectious waste and safely handling it you must:

- Use yellow and black bags for non- infectious waste
- Use shredders to reduce the quantity of waste

## REQUIREMENTS FOR BACTERIA AND VIRUS REMOVAL

### METHODS FOR REMOVING VIRUSES AND BACTERIA

- High temperature
- Chemicals (bleach and other)
- Ozone and ultraviolet rays

### THE MOST EFFECTIVE AND SAFEST METHOD

**Wash at 60°C or 75°C and when possible at 90°C**

# LG PROFESSIONAL WASHERS AND DRYERS

## HYGENIC WASHING MACHINES AND DRYERS WITH **OZONE GENERATOR**

- Converts cold water into an ecological disinfectant
- Ozone-enriched water disinfects, eliminates bacteria and neutralizes viruses, even in a cold water washing program

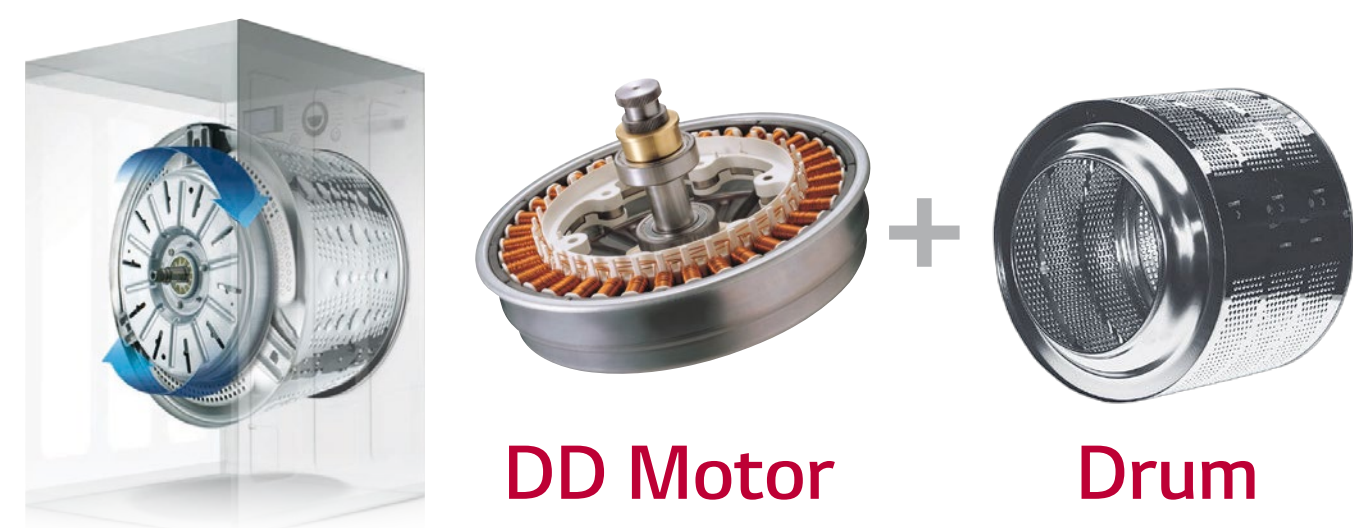

## Automatic dosing kit **BW HYB-3P**

- Automatic dosing kit with 3 pumps
- Quick and easy installation
- Dosage time adjustment from 1s to 20s

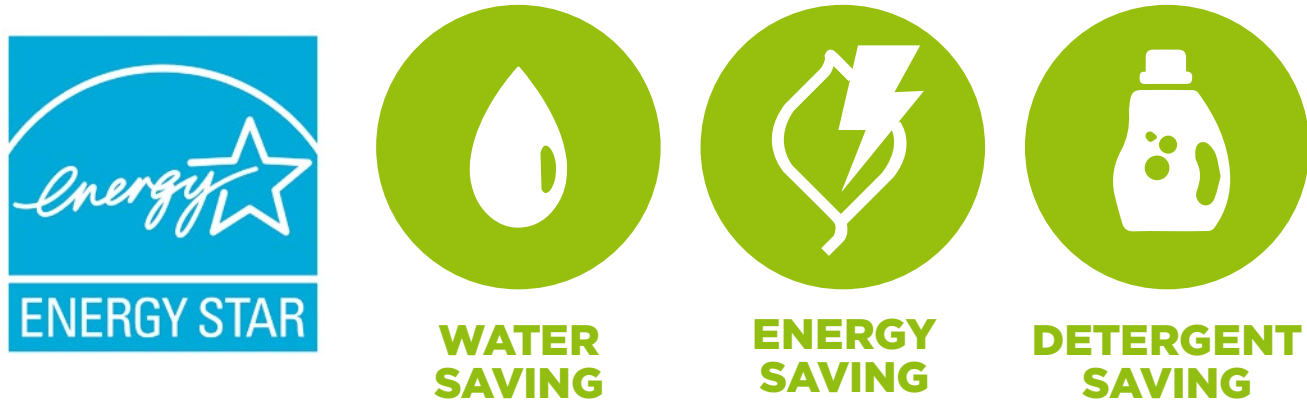

# DURABILITY

LG professional devices give you superior durability and reliability thanks to **LG Inverter Direct Drive™** technology.

# EFFICIENCY

LG professional washing machines are **ENERGY STAR** classified with the lowest water and electricity consumption compared to competing appliances of the same category.

# FLEXIBLE INSTALLATION

**LG professional dryers** can be installed on top of a washer or a dryer.

**Simple installation** on an existing network – appliances have a 220 V connection.

**The machines are adaptable** to spaces – The washing machines have a drainage pumps so they can be connected to existing installations.

# MONITORING & EASY SERVICE

**LG App** makes it easier than ever to do the laundry remotely. Monitor your operations remotely with the **LG management Web**. You can get real-time status updates and diagnose problems remotely.

# HYGIENIC PROGRAMS AND FUNCTIONS

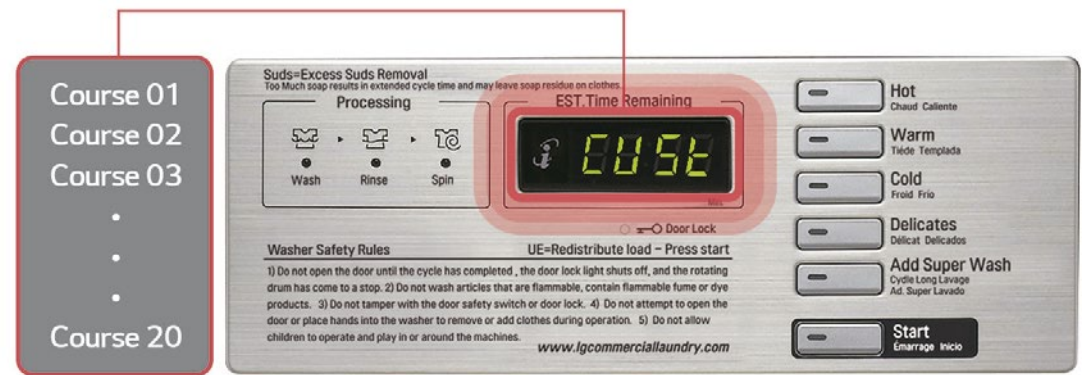

**Pre Clean** - quick, 3-minute Clean Tub Cycle to ensure the tub is sanitized and clean before they start their laundry.

**Hygiene program** – a customized program ensures complete disinfection and the best washing performance.

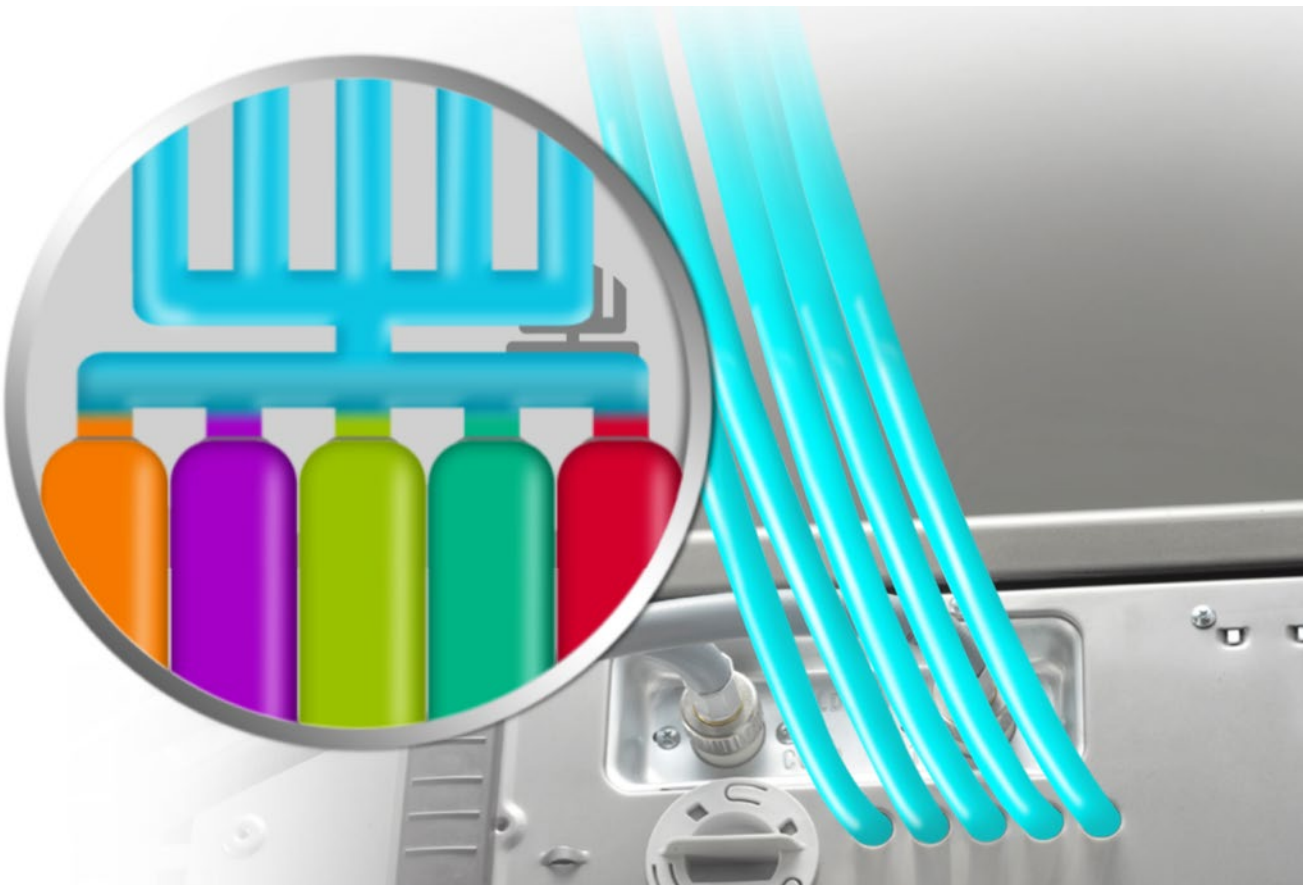

**Intensive Tub Clean** - sanitizes the tub by using the powerful wave force of water to get any residue off the tub surface, leaving the washer squeaky clean.

# CUSTOMIZABLE PROGRAMS

**Users can set up 20 of their programs** to optimize the washing process. Setting the temperature, water level, program duration and spin speed ensures economical and gentle washing of protective clothing.

# AUTO DOSING SYSTEM

LG professional devices are adapted for use in an **automatic dosing system**

Beside devices, as a complete solution, we can offer you:

- superior dosing pumps
- specially designed detergents for laundrettes.

# USER-FRIENDLY APPLIANCES

The simple **intuitive interface** of LG professional devices makes it easy for users to quickly select different functions and programs.

# SPECIALLY DESIGNED DETERGENTS FOR LAUNDRETTES

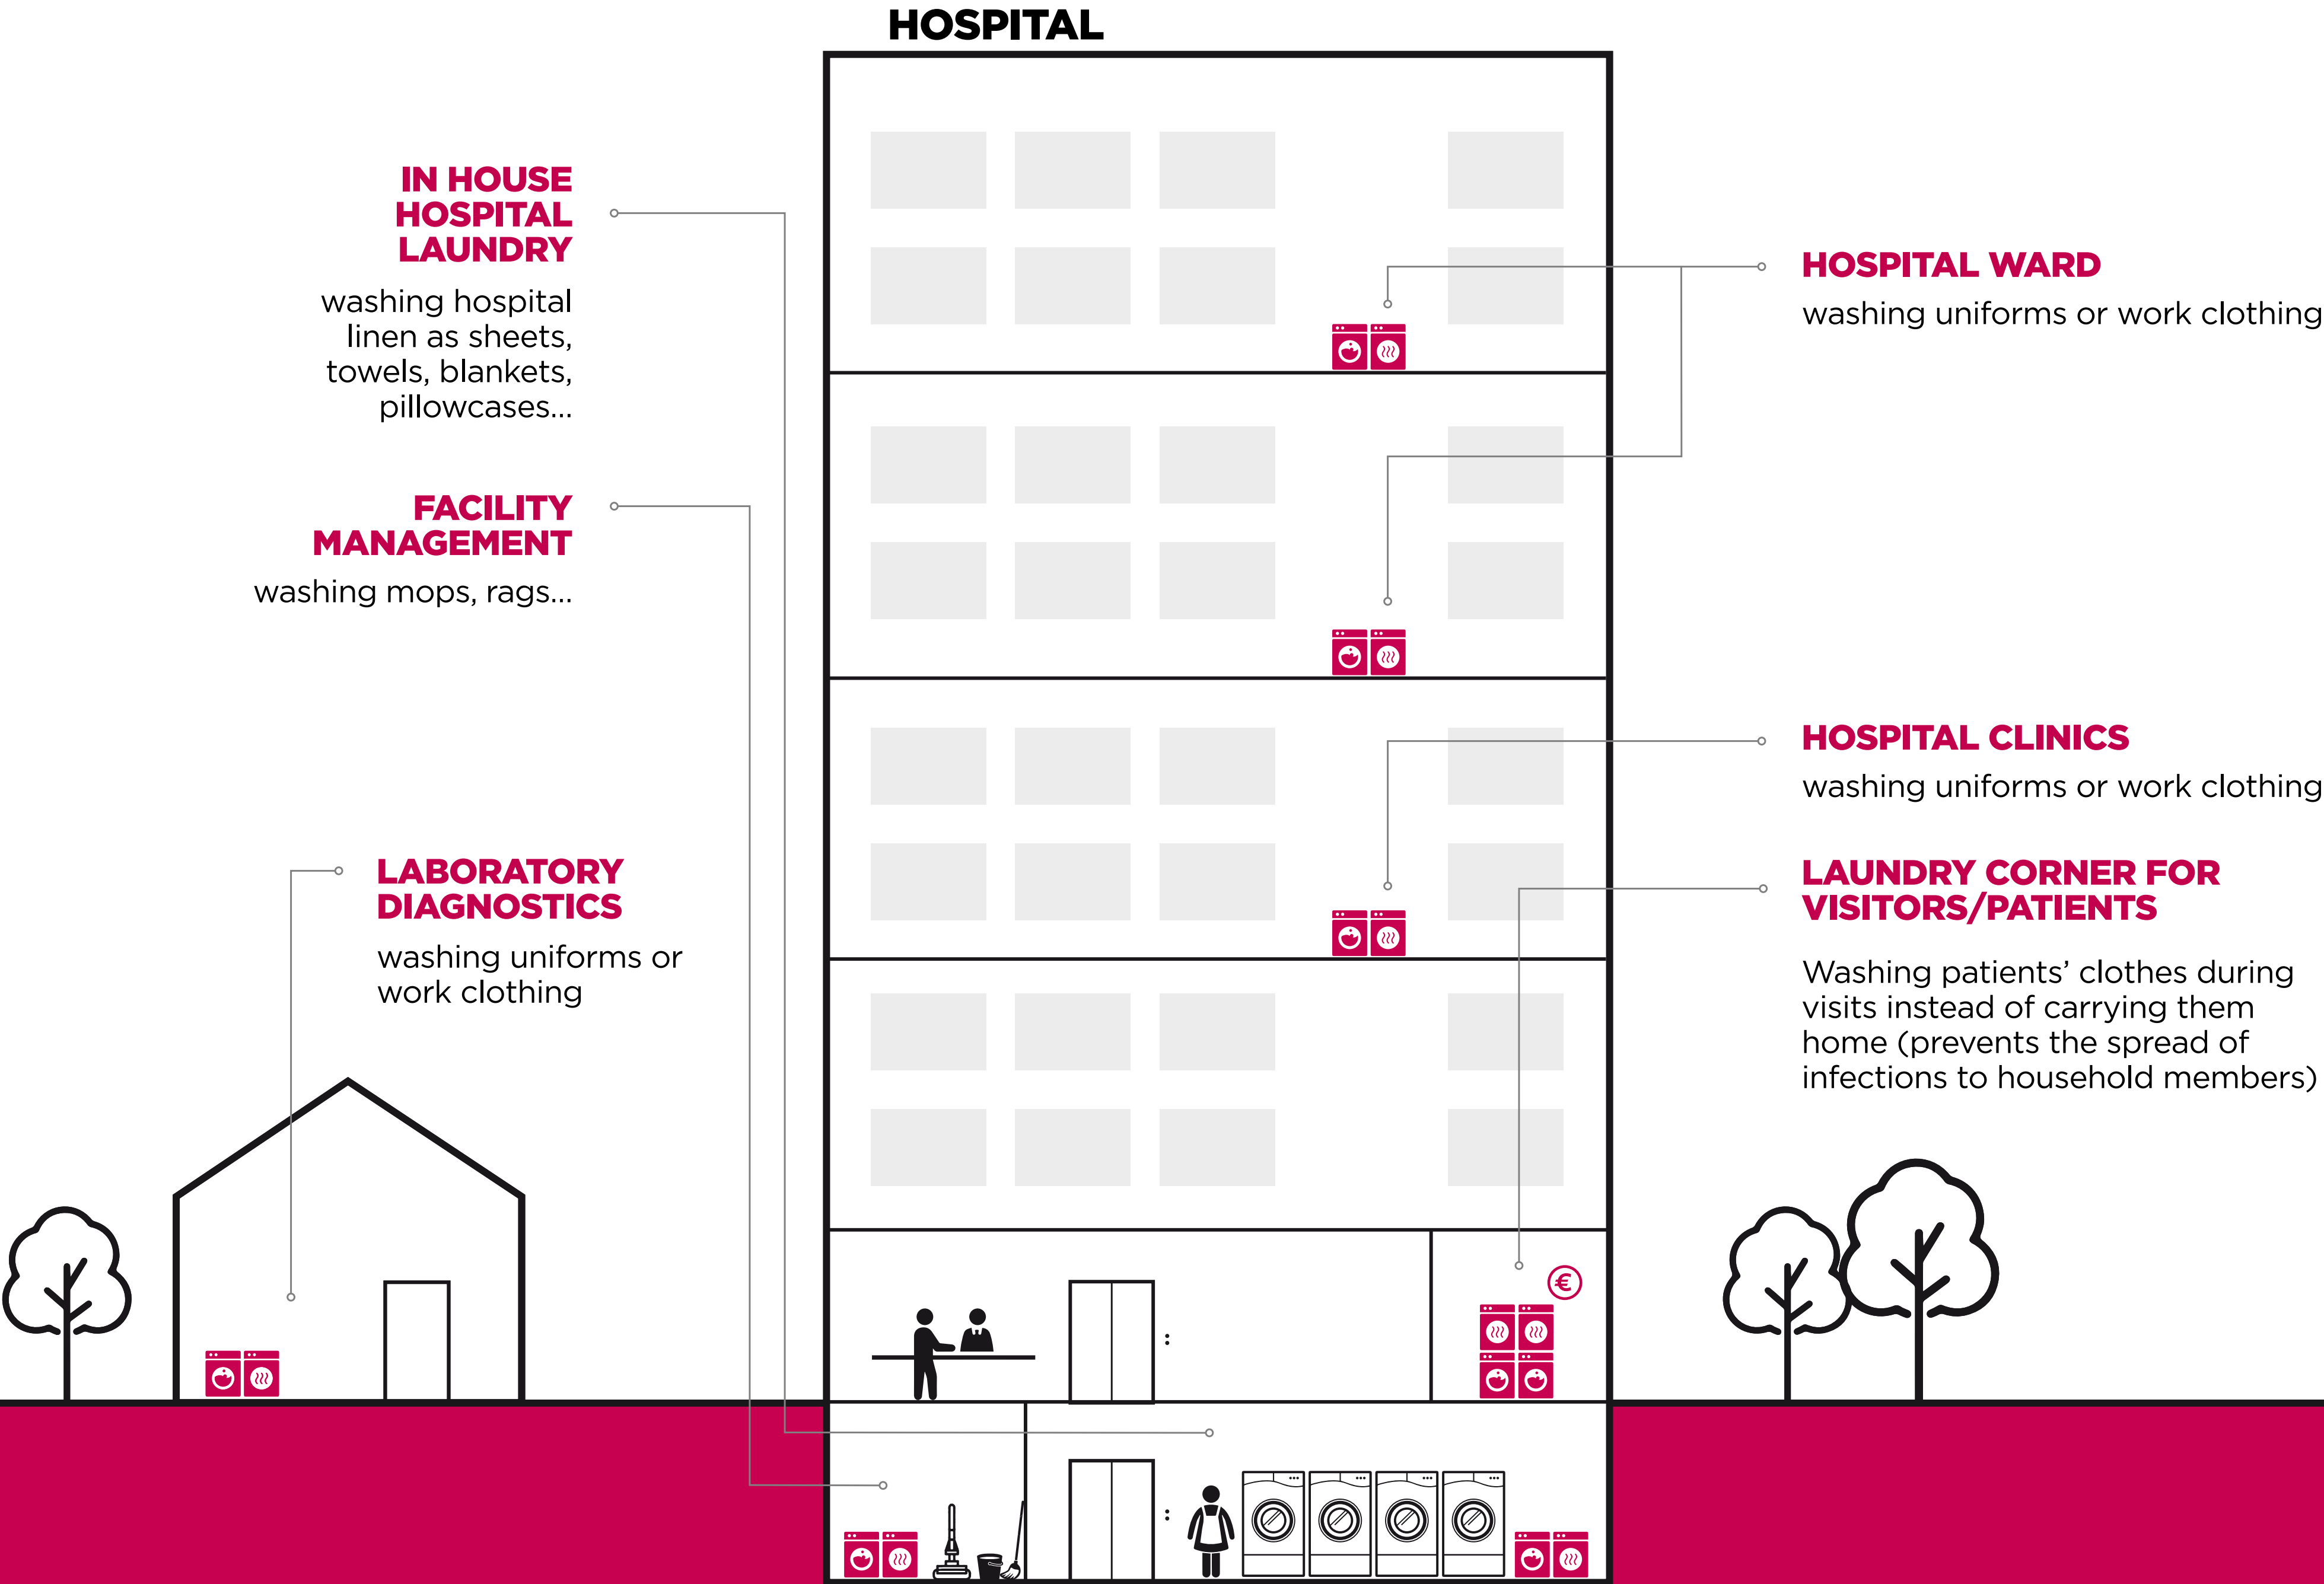

With LG professional appliances, we recommend **high-quality detergents** that are especially suitable for laundry.

Liquid detergents can be dosed automatically and adapted for fast washing cycles and low temperature programs.

Thanks to their hygienic properties, in addition to LG hygienic devices, they provide complete safety and cleanliness of the laundry.
